

Liquidity Coverage Ratio: September 30, 2021.

The Bank adheres to RBI guidelines on Liquidity Coverage Ratio, Liquidity Risk Monitoring Tools and the LCR Disclosure Standards pursuant to the Basel III Framework on Liquidity Standards that are applicable to banks in India with effect from January 1, 2015. The regulatory threshold is embedded into the Risk Appetite Statement of the Bank and hence maintenance of LCR is subject to periodic review of Risk Management Committee/Board. The Bank computes the LCR and reports the same to the Asset Liability Management Committee (ALCO) every month for review as well as to the Risk Management Committee of the Board. Liquidity Coverage Ratio (LCR) promotes short-term resilience of banks to potential liquidity disruptions by ensuring that they have sufficient high quality liquid assets (HQLAs) to survive an acute stress scenario lasting for 30 days. LCR is computed on a daily basis from 1st January 2017 and in accordance with regulatory prescriptions, the LCR disclosures contain data on simple average of daily observations over a period of 90 days. Bank has computed the LCR of the IFSC Banking Unit at GIFT City on a standalone basis as per the extant guidelines. Bank has not computed LCR separately for any foreign currency since the aggregate liabilities denominated in any foreign currency doesn't amount to 5% or more of the Bank's total liabilities. Bank has consistently maintained LCR above the prescribed regulatory minimum. For FY 2022, RBI has reinstated the regulatory minimum for LCR as 100% w.e.f 1st April, 2021 on expiry of the relaxations given in terms of regulatory minimum for LCR on account of Covid-19.

On an average, 97% of the HQLA maintained by the Bank comprises of Level 1 assets which is the most liquid asset category. Cash in hand, excess CRR and SLR, G-Sec within mandatory SLR requirement permitted by RBI under MSF (presently 3% of NDTL as per the relaxations permitted by RBI in the context of Covid-19) and facility to avail liquidity ratio (presently 15% of NDTL) constitutes Level 1 HQLA. Level 2 Assets maintained by the Bank comprises of (a) marketable securities representing claims on or claims guaranteed by sovereigns, Public Sector Entities (PSEs) or multilateral development banks that are assigned a 20% risk weight under the Basel III Standardized Approach for credit risk and that are not issued by a bank/financial institution/NBFC or any of its affiliated entities and (b) Corporate bonds, not issued by a bank/financial institution/NBFC or any of its affiliated entities, which have been rated BBB- or above by an Eligible Credit Rating Agency. HQLA is also well diversified across various instruments and liquid asset types and should provide the Bank with adequate and timely liquidity.

Bank has a well-diversified funding portfolio. Retail deposits, considered as stable from a liquidity perspective is the major funding source of the Bank, indicating lower dependence of the Bank on wholesale funds.

The liquidity risk management in the Bank is guided by the ALM Policy. Asset Liability Management Committee (ALCO) is the executive level committee responsible for ALM process in the Bank. Bank's liquidity management is actively done by the Treasury department as per the directions of ALCO. Integrated Risk Management Department actively monitors the liquidity position of the Bank and apprises ALCO on a continuous basis to initiate appropriate actions to ensure that the liquidity position is well within the Risk Appetite set by the Board of Directors.

The following table sets out average LCR of the Bank (Consolidated) for quarter ended September 30, June 30 and March 31, 2021.

(Amount in ₹ Lakhs)
