## **Structure and organization of Bank's risk management function**

Bank has put in place an organizational framework for Bank-wide management of risk on integrated basis. The structure ensures coordinated process for measuring and managing all material risks on an enterprise-wide basis to achieve organizational goals. The structure is designed in tune with the regulatory guidelines.

Bank's Board at the top of the structure assumes overall responsibility for Bank-wide management of risk. The Board approves risk management policies of the Bank and sets risk exposure limits based on Bank's risk appetite and risk bearing capacity. Risk Management Committee of the Board assumes responsibility for devising policy and strategy for enterprise-wide risk management. The Committee also sets guidelines for measurement of risks, risk mitigation and control parameters and approves adequate infrastructure for risk management. The Committee meets regularly and reviews the reports placed before it on various risk areas.

There are four support committees of senior executives viz Credit risk management committee, Market risk management committee, Operational risk management committee and Information security committee - (CRMC, ALCO also known as MRMC, ORMC & ISC), responsible for implementation of policies and monitoring of level of risks in their respective domains. The Committees are headed by Managing Director & CEO. Senior executives from respective functional areas and risk management are members of the Committee. The Committees meet regularly to take stock of various facets of risk management function and place their reports to Risk Management Committee of the Board. ALCO meets at least once in a month and ISC meets at least once in a quarter. Depending on requirement, ALCO meets at shorter frequencies. CRMC and ORMC meet at least once in a quarter subject to minimum of six meetings in a year while the ISC meets at least once every quarter.

The major risks addressed are Credit risk, Market risk, Operational Risk, Residual credit Risk, Concentration Risk, Interest Rate Risk, Liquidity Risk, Strategic Risk, Reputation Risk, Human Resources Risk, Pension Obligation Risk, IT & Cyber Security Risk, Compliance Risk, and Settlement Risk.

Other material risks identified from time to time are taken care of by one of the above said committees or other functional committees of executives, depending on the nature of risk.

Integrated Risk Management Department is responsible for overall identification, measurement, monitoring and controlling various types of risks faced by the Bank in its operations and compliance of risk management guidelines and policies issued by Regulator /Board. IRMD has four divisions: Credit Risk Division, Market Risk Division, Operational Risk Division and Compliance and Risk Assurance Cell. Division Heads report to the Head-Risk & Chief Risk Officer who reports directly to the Managing Director & CEO.

**Organization Structure:**

**RISK EXPOSURE AND ASSESSMENT**

**1. Credit risk**

***Strategies and processes:***

The Bank is exposed to credit risk in its lending operations. The Bank’s strategies to manage the credit risks are given below:

- a) Defined segment exposures delineated into Business Banking, Commercial Banking, Corporate, Retail and Agri advances.
- b) Industry wise segment ceilings on aggregate lending in respect of certain industries, ceilings have been fixed for specific geographies with a view to contain Concentration risk.
- c) Individual borrower wise and borrower group wise lending ceilings linked as a percentage to the Bank’s eligible capital base as at the end of the previous year.
- d) Borrowers are subjected to credit rating and loans are granted only to those borrowers falling within defined thresholds of risk levels; the approach also includes diversification of borrowers within defined thresholds of risk levels.
- e) Major business of the Bank is within India. However, bank has an IFSC branch located in GIFT City, Gujarat. In respect of cross border trade which would involve exposures to banks and financial institutions located outside India, there is a geographic cap on exposures apart from cap on individual bank / institution. Bank has also fixed ceiling for its foreign currency exposures.
- f) Bank has adopted a well-defined approach for sourcing and underwriting loan proposals. Proper due diligence is carried out while sourcing fresh credit limits.

- g) Credit sanctioning powers are granted as per Credit Delegation Policy based upon the amount and riskiness of the exposure.
- h) Regular review of all credit policies including exposure ceilings are carried out with due approval of Bank's Board of Directors.
- i) Credit hub system is put in place to enhance quality of credit appraisal and underwriting process.
- j) Specialized Credit Advisory Teams operating at strategic locations to streamline and monitor credit processes within the credit hubs, evaluate and chart action plans to act on EWS, conduct unit visit of stressed account and formulate other measures to maintain standard health classification of credit exposures.
- k) Dedicated Credit Monitoring Department at national level and other key geographies to monitor / follow up of performance of loans and advances.
- l) Credit Administration Department at central level and at other key geographies are formed to ensure compliance of documentation formalities and submission of post credit monitoring reports / compliance of sanction order covenants.
- m) Robust statistical score cards are used for retail credit appraisal process.
- n) Bank also uses Behavioral / transactional models for monitoring the transaction behavior of loan accounts.
- o) Model validation is done on yearly basis to assess the discriminatory power and stability of the models.
- p) Bank has laid down appropriate mechanism for ongoing identification, development and assessment of expertise of officials in the area of credit appraisal, underwriting and credit management functions.
- q) Internal credit rating of all credit proposals above ₹ 10 Crores is confirmed by Integrated Risk Management Department.

***Structure and organization of risk management function:***

Bank has put in place Board approved comprehensive Credit Risk Management Policy. The policy aims to provide basic framework for implementation of sound credit risk management system in the Bank. It spells out various areas of credit risk, goals to be achieved, current practices and future strategies. Bank has also operationalized required organizational structure and framework as prescribed in the policy for efficient credit risk management through proactive identification, precise measurement, fruitful monitoring and effective control of credit risk arising from its credit and investment operations. Risk Management Committee of the Board oversees Bank wide risk management and senior executive level Credit Risk Management Committee monitors adherence to policy prescriptions and regulatory directions. CRMC of the Bank meets at least once in a quarter (subject to minimum of 6 meetings in a year) to take stock of Bank's credit risk profile based on the reports placed by Credit Risk Division of Integrated Risk Management Department.

Bank has put in place a detailed Loan Policy spelling out various aspects of Credit dispensation and Credit administration. Loan policy stipulates measures for avoiding concentration risk by setting prudential limits and caps on sector wise, rating grade wise, and customer-constitution wise exposure. CRM policy gives specific instructions on valuation of collaterals. Bank has also put in place guidelines on fixing and monitoring of exposure ceilings to contain risk in credit and investment exposures.

***Scope and nature of risk reporting / measurement systems:***

Bank has implemented comprehensive risk rating system that serves as a single point indicator of diverse risk factors of counterparty and for taking credit decisions in a consistent manner. Risk rating is made applicable for all loan accounts irrespective of amount, whether funded or non-funded. However, staff loans and loan against liquid securities are exempted from rating. Bank uses different rating models which are two dimensional, viz obligor rating and facility rating. Risk rating models are drawn up in a structured manner, incorporating different factors such as borrower specific characteristics, industry specific characteristics, financials, securities offered etc.

Bank has specific rating models capable of rating large corporates, traders, SME, Non-Banking Finance Companies (NBFCs), real estate and service sector clients. Retail advances, small value loans and retail agriculture loans are rated using applicable score cards. Transactional / behavioral scorecards have been developed for all major retail portfolios and are used for monitoring the performance of the borrower post onboarding. All rating models are subjected to annual validation by objectively assessing the discriminatory power, stability of ratings and calibration of models are undertaken, if necessitated.

Rating process and rating output are used by the Bank in sanction and pricing of its exposures. Bank also conducts annual review of credit rating of its exposures and the findings are used in annual rating migration study and portfolio evaluation for exposures of above ₹2 Cr.

Credit facilities are sanctioned at various levels in accordance with the delegation policy approved by the Board. Bank has generally adopted a committee approach for credit sanction. Credit rating assigned by an official is also subjected to confirmation by another official. Credit audit is being conducted at specified intervals. Credit risk mitigation techniques are resorted to contain the risk at the minimum level.

***Policies for hedging / mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:***

Bank's Credit Risk Management Policy stipulates various tools for mitigation of credit risk and collateral management. Investment Policy of the Bank covers risk related to investment activities of the Bank and it prescribes prudential limits, methods of risk measurement, and hedges required in mitigation of risk arising in investment portfolio. Risk Management Committee of the Board and executive level Credit Risk Management Committee monitor, discuss, evaluate and review risk mitigation levels and effectiveness of mitigation measures.

Risk rating process by itself is an integral part of the process for selection of clients and sanction of credit facilities. Exercise of delegation for sanction of fresh loans or renewal / review of existing exposure by field level functionaries is permitted only for borrowers above a threshold rating grade. Entry-level restrictions are further tightened in certain sectors where market signals need for extra caution.

**2. Market risk**

***Strategies and processes:***

Market risk is monitored through various risk limits set vide Board approved Market Risk Management Policy. Detailed policies like Asset Liability Management Policy, Investment, Forex and Derivatives Policy, Market Risk Management Policy etc. are put in place for the conduct of business exposed to Market risk and also for effective management of all market risk exposures.

The policies and practices also take care of monitoring and controlling of liquidity risk arising out of its banking and trading book operations.

***Structure and organization of risk management function:***

Risk Management Committee of the Board oversees bank-wide risk management. Asset Liability Management Committee (ALCO), also known as Market Risk Management Committee, is primarily responsible for establishing Market Risk Management and Asset Liability Management in the Bank. ALCO is responsible for implementing risk management guidelines issued by the regulator, leading risk management practices followed globally and monitoring adherence to the internal parameters, procedures, practices / policies and risk management prudential limits.

Independent Mid office, which forms a part of Market Risk Division of IRMD, is operational in the floor of Bank's Treasury for onsite monitoring of Treasury functions. The Mid Office conducts market risk management functions like onsite monitoring of adherence to set limits, independent valuation and reporting of activities. It also computes capital charge for market risk and VaR of market portfolios on a daily basis. This separate desk monitors market / operational risks in Bank's Treasury/ Forex operations on a daily basis.

***Scope and nature of risk reporting / measurement systems:***

Bank has put in place regulatory/ internal limits for various products and business activities relating to trading book. Non-SLR investment exposures are subjected to credit rating. Limits for exposures to counterparties, industries and countries are monitored and risks are controlled through Stop Loss Limits, Overnight Limit, Daylight Limit, Aggregate Gap Limit, Individual Gap Limit, Inter-Bank dealing and investment limits etc. Parameters like Modified Duration, VaR etc. are used for Risk management and reporting.

***Policies for hedging/ mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:***

Policies for hedging/ mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants are discussed in ALCO and based on the views taken by/ mandates given by ALCO, hedge deals/ mitigation steps are undertaken.

Liquidity risk of the Bank is assessed through Statements of Structural Liquidity, Liquidity Coverage Ratio and Short Term Dynamic Liquidity. The liquidity profile of the Bank is measured on static and dynamic basis using the Statements of Structural Liquidity and Short Term Dynamic Liquidity respectively. Structural liquidity position and Liquidity Coverage Ratio are computed on a daily basis and Dynamic liquidity position is assessed on a monthly basis.

Additional prudential limits on liquidity risk fixed as per ALM policy of the Bank are monitored by ALCO on a monthly basis. Interest rate risk is analyzed from earnings perspective using Traditional Gap Analysis and Economic value perspective using Duration Gap Analysis on a

monthly basis. Based on the analysis, steps are taken to minimize the impact of interest rate changes.

Bank is computing LCR (Liquidity Coverage Ratio) on a daily basis and NSFR (Net stable funding ratio) on a quarterly basis. Advanced techniques such as Stress testing, sensitivity analysis etc. are conducted periodically to assess the impact of various contingencies.

### **3. Operational risk**

#### ***Strategies and processes:***

The Bank is exposed to operational risk in all its activities. Operational risk is primarily managed by prescribing adequate controls and mitigation measures, which are being reviewed and updated on a regular basis, to suit the changes in business practices, organization structure and risk profile. Business Continuity and Disaster Recovery Plans are established to ensure continuity of critical operations of the Bank and safety of its people. Robust information and cyber security frameworks are established for securing the IT infrastructure and systems of the Bank.

#### ***Structure and organization of risk management function:***

Bank has put in place a detailed framework for Operational Risk Management with a well-defined ORM Policy. The Risk Management Committee of the Board oversees Bank-wide operational risk management. Operational Risk Management Committee (ORMC) at the executive level oversees bank wide implementation of Board approved policies and processes in this regard. The operational risk management framework of the Bank also encompasses information and cyber security framework for securing the IT infrastructure and systems. The executive level Information Security Committee (ISC) is responsible for implementation of strategies and policies for protection of all information assets of the Bank. The Information Security Team headed by the Chief Information Security Officer (CISO) formulates and periodically reviews the information and cyber security policies and practices.

#### ***Scope and nature of risk reporting / measurement systems:***

Bank is collecting operational risk loss data directly from the loss originating points. Bank has established a separate accounting procedure for operational risk events to enhance transparency and to enable effective monitoring of loss events. The operational risk loss data is consolidated, analyzed and reported to the Operational Risk Management Committee at least on a quarterly basis.

Bank is conducting RCSAs (Risk and Control Self-Assessments) regularly to assess the level of inherent and residual risks and appropriate controls are introduced, wherever necessary, to reduce the risk levels. The controls are frequently tested based on the level of the underlying risk and if failure exceeds defined thresholds, immediate steps are initiated for remediation/ improvement of the failed control.

Bank is monitoring Key Risk Indicators on a periodical basis for assessing the changes in operational risk profile and triggering reviews and corrective actions, if required.

***Policies for hedging / mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:***

A robust control mechanism covering centralised processing, segregation of duties, straight through processing, timely reconciliation, user access controls etc. is in place and periodically reviewed. Wherever deficiencies are found in process or improvements required in the mitigants, such activities are taken up by respective functional owners. Various training and awareness programmes are conducted to improve awareness among the staff regarding the internal controls and procedures as also the various actions to be taken to avoid or minimize operational risks.

Prior to launching of any new product or process or alteration of any existing product or process, all relevant risks are analysed and processes and controls established to manage the risks involved.

As information & communication technologies are relied on for delivery of banking services, robust system level controls are put in place to ensure the confidentiality, integrity and availability of information systems in the Bank. There is a Security Operations Centre (SOC) which performs security monitoring round the clock. Bank has also received ISO 27001 accreditation for its critical IT areas.

To evaluate the effectiveness of the business continuity arrangements, periodic drills and tests are conducted. A preventive vigilance framework is in place, whereby various transactions are monitored by dedicated teams from the angle of fraud risk and AML. Bank is also using insurance for reducing the impact of various operational risk losses and liabilities.

The Inspection & Audit Department undertakes various audits like RBIA, Revenue Audit, IS Audit, Special Audit, Management Audit etc. to provide an independent assurance on the management of operational risks.

#### **4. Interest rate risk in Banking Book**

***Strategies and processes:***

Interest Rate Risk is assessed in two perspectives – Earnings perspective using Traditional Gap Analysis to assess the impact of adverse movement in interest rate on the Net Interest Income (Earnings at Risk) and Economic value perspective using Duration Gap Analysis to assess the impact of adverse movement in interest rate on the market value of Bank's equity.

***Structure and organization of risk management function:***

Risk Management Committee at the Board level and ALCO at the executive level are responsible for effective management of Interest Rate Risk in Bank's business. Board approved ALM Policy governs the Interest rate risk management framework of the Bank. Market Risk Management Policy takes care of the management of Interest rate risk in the Trading Book of the Bank.

***Scope and nature of risk reporting / measurement systems:***

Interest rate risk in Banking Book is assessed and Modified Duration of Equity is evaluated on a monthly basis. The likely drop in Market Value of Equity for 200 bps change in interest rates is computed and benchmarked under the Internal Capital Adequacy Assessment Process for computation of Pillar II capital charge for Interest Rate Risk. Earnings at Risk based on Traditional Gap Analysis are calculated on a monthly basis. The results of Duration Gap Analysis as well as that of Traditional Gap Analysis including the adherence to tolerance limit set in this regard is monitored and is placed before ALCO for approval. Stress tests are conducted to assess the impact of interest rate risk under different stress scenarios on earnings of the Bank.

***Policies for hedging / mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:***

Bank has put in place mitigating / hedging measures prescribed by Investment Forex and derivative Policy, ALM Policy, Market Risk Management Policy. Risk profiles are analyzed, and mitigating strategies/ hedging process are suggested and operationalized by Treasury Department with the approval of Senior Level Committees.

**TABLE DF – 3: CREDIT RISK: GENERAL DISCLOSURES**

**Qualitative disclosures**

***Definitions of past due and impaired (for accounting purposes):***

1. Non-Performing Assets

An asset including a leased asset becomes non-performing when it ceases to generate income for the bank. A non-performing asset (NPA) is a loan or an advance where

- a. Interest and/ or installment of principal remain overdue for a period of more than 90 days in respect of a term loan.
- b. The account remains 'Out of order' as indicated in paragraph 2 below, in respect of an Overdraft / Cash Credit (OD/CC).
- c. The bill remains overdue for a period of more than 90 days in case of bills purchased and discounted.
- d. The installment of principal or interest thereon remains overdue for two crop seasons for short duration crops.
- e. The installment of principal or interest thereon remains overdue for one crop season for long duration crops.

2. 'Out of Order' status

An account is treated as 'Out of Order' if the outstanding balance remains continuously in excess of the sanctioned limit / drawing power. In cases where the outstanding balance in the principal operating account is less than the sanctioned limit / drawing power, but there are no credits continuously for 90 days as on the date of Balance Sheet or credits are not enough to cover the interest debited during the same period, these accounts are treated as Out of order.

3. 'Overdue'

Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the bank.

4. Special Mention Accounts

As prescribed by RBI, the Bank is required to identify incipient stress in the account by creating a Sub Asset category named as 'Special Mention Accounts' (SMA). It is considered as a corrective action plan to arrest slippages of standard assets to NPA. Accordingly, Bank is identifying three sub categories under SMA as below:

<b>SMA Sub-categories</b>	<b>Basis for classification - Principal or interest payment or any other amount wholly or partly overdue between</b>
SMA-0	1 - 30 days
SMA-1	31 - 60 days
SMA-2	61 - 90 days

In the case of revolving credit facilities like cash credit, the SMA sub-categories will be as follows

<b>SMA Sub-categories</b>	<b>Basis for classification – Outstanding balance remains continuously in excess of the sanctioned limit or drawing power, whichever is lower, for a period of:</b>
SMA-1	31- 60 days
SMA-2	61 – 90 days

***Credit Risk***

Credit Risk may be defined as

- a. Inability or unwillingness of the counterparty to pay interest, repay principal or otherwise to fulfill their contractual obligations under loan agreements or other credit facilities.
- b. Downgrading of counterparties whose credit instruments, the Bank may be holding, causing the value of those assets to fall.
- c. Settlement Risk (possibility that the Bank may pay counterparty and fail to receive the corresponding settlement in return).

***Discussion of the Bank's Credit Risk Management Policy:***

Bank has put in place a detailed Credit Risk Management Policy. Goal of this policy is to create a transparent framework for identification, assessment and effective management of credit risk in all operations of the Bank and to secure organizational strength and stability in the long run. The policy aims at contributing to the Bank's profitability by efficient and

profitable utilization of a prudent proportion of the Bank's resources and maintaining a reasonably balanced portfolio of acceptable risk quality through diversification of credit risks. The policy also envisages optimizing returns with satisfactory spread over funding cost and overheads.

The policy deals with the structure, framework and processes for effective management of inherent credit risk. Credit Risk Management Policy also provide a framework for identification of stressed sectors in the economy and creating additional provision for exposures to these sectors..

<b>Quantitative disclosures</b>				(Amount in ₹ Mn.)		
	Fund based exposure*	Non-fund based exposure**	Total			
Total gross credit risk exposures (after accounting offsets in accordance with the applicable accounting regime and without taking into account the effects of credit risk mitigation techniques)	1678690	112270	1790960

**TABLE DF – 4: DISCLOSURES FOR PORTFOLIOS SUBJECT TO THE STANDARDIZED APPROACH**

<p><b>1.</b></p>	<p><b>Qualitative disclosures</b></p> <p>For portfolios under the Standardized Approach:</p> <p><i>Names of credit rating agencies used, plus reasons for any changes:</i></p> <p>Bank has approved all the seven External Credit Rating Agencies accredited by RBI for the purpose of credit risk rating of domestic borrower accounts that forms the basis for determining risk weights under Standardized Approach.</p> <p>External Credit Rating Agencies approved are:</p> <ol style="list-style-type: none"> <li>1. CRISIL Ratings Ltd</li> <li>2. CARE</li> <li>3. India Ratings and Research Private Limited (Formerly FITCH INDIA)</li> <li>4. ICRA</li> <li>5. Brickwork Ratings India Pvt. Ltd. (BRICKWORK)</li> <li>6. Acuite Rating &amp; Research (Formerly SMERA Ratings Ltd)</li> <li>7. INFOMERICS Valuation and Rating Pvt. Ltd. (INFOMERICS)</li> </ol> <p>Bank is also using the ratings of the following international credit rating agencies for assigning risk weights to claims for capital adequacy purposes where the exposure can be specified as international exposure:</p> <ol style="list-style-type: none"> <li>1. Fitch</li> <li>2. Moody's and</li> <li>3. Standard &amp; Poor's</li> </ol> <p>With respect to external credit rating, Bank is using long term ratings for risk weighting all long term claims and unrated short term claims on the same counterparty. However, short term rating of a counterparty is used only to assign risk weight to all short term claims of the obligor and not to risk weight unrated long term claims on the same counterparty.</p>
	<p><i>Types of exposure for which each agency is used:</i></p> <ol style="list-style-type: none"> <li>1. Rating by the agencies is used for both fund based and non-fund based exposures.</li> <li>2. Short Term Rating given by the agencies is used for exposure with contractual maturity of less than or equal to one year (except Cash Credit, Overdrafts and other Revolving Credits).</li> <li>3. Long Term Rating given by the agencies is used for exposures with contractual maturity of above one year and also for Cash Credit, Overdrafts and other Revolving Credits.</li> <li>4. Rating assigned to one particular entity within a corporate group is not used to risk weight other entities within the same group.</li> </ol>

	The rating reviewed, at least once during past 15 months will only be considered for risk weighting purposes.
	<p><i>Description of the process used to transfer public issue ratings into comparable assets in the Banking Book:</i></p> <p>The ratings available in public domain are mapped according to mapping process as envisaged in RBI guidelines on the subject.</p> <p>Issue Specific Ratings (Bank's own exposures or other issuance of debt by the same borrower constituent/ counterparty) or Issuer Ratings (borrower constituent/ counterparty) are applied to unrated exposures of the same borrower constituent/ counterparty subject to the following:</p> <ol style="list-style-type: none"> <li>1. Issue specific ratings are used where the unrated claim of the Bank ranks pari passu or senior to the rated issue / debt.</li> <li>2. Wherever issuer rating or issue specific ratings are used to risk weight unrated claims, such ratings are extended to entire amount of claim on the same counterparty.</li> <li>3. Ratings used for risk weighting purposes are confirmed from the websites of the rating agencies concerned.</li> </ol>

<b>2.</b>	<b>Quantitative disclosures</b>		
	Risk weight wise details of exposures (rated and unrated) after risk mitigation subject to the Standardized Approach (Credit equivalent amount of all exposures subjected to Standardized Approach, after risk mitigation)	<b>Risk Weight</b>	(Amount in ₹ Mn.)

**TABLE DF – 5: CREDIT RISK MITIGATION: DISCLOSURES FOR STANDARDIZED APPROACHES**

<b>1.</b>	<b>Qualitative disclosures</b>
	Disclosures on credit risk mitigation methodology adopted by the Bank that are recognized under the Standardized Approach for reducing capital requirements for credit risk
<b>1.1</b>	<b>Policies and processes for, and an indication of the extent to which the bank makes use of, on- and off-balance sheet netting</b>
	Bank has no practice of on-balance sheet netting for credit risk mitigation. Eligible collaterals taken for the exposures are separately earmarked and the exposures are expressed without netting.
<b>1.2</b>	<b>Policies and processes for collateral valuation and management</b>
	Bank has put in place Board approved policy on Credit Risk Management in which Collateral Management and credit risk mitigation techniques used by the Bank for both Risk management and capital computation purposes are separately included. The Loan policy of the Bank covers various aspects of valuation of collaterals.
<b>1.3</b>	<b>Description of the main types of collateral taken by the Bank</b>

	<p>Collaterals used by Bank as risk mitigants for capital computation under Standardized Approach comprise eligible financial collaterals namely:</p> <ol style="list-style-type: none"> <li>1. Cash margin and fixed deposits of the counterparty with the Bank.</li> <li>2. Gold jewel of purity 91.6% and above, the value of which is notionally converted to value of gold with 99.99% purity.</li> <li>3. Securities issued by Central and State Governments.</li> <li>4. Kisan Vikas Patra and National Savings Certificates.</li> <li>5. Life Insurance Policies with a declared surrender value of an Insurance company regulated by the insurance sector regulator.</li> <li>6. Debt securities rated by a chosen Credit Rating Agency in respect of which the Bank is sufficiently confident of market liquidity of the security and where these securities are either:             <ol style="list-style-type: none"> <li>a. Attracting 100% or lesser risk weight i.e. rated at least BBB (-) when issued by Public sector entities and other entities including banks and Primary Dealers or</li> <li>b. Attracting 100% or lesser risk weight i.e. rated at least A3 for short term debt instruments</li> </ol> </li> <li>7. Debt securities not rated by a chosen Credit Rating Agency in respect of which the bank is sufficiently confident of market liquidity of the security and where these securities are:             <ol style="list-style-type: none"> <li>a. Issued by the bank</li> <li>b. Listed on a recognized exchange</li> <li>c. Classified as senior debt</li> <li>d. All rated issues of the same seniority by the issuing Bank are rated at least BBB (-) or A3 by a chosen Credit Rating Agency</li> <li>e. The bank has no information to suggest that the issue justifies a rating below BBB (-) or A3 by a chosen Credit Rating Agency</li> <li>f. Bank is sufficiently confident about the market liquidity of the security.</li> </ol> </li> <li>8. Units of Mutual Funds regulated by the securities regulator of the jurisdiction of the Bank's operation and mutual funds where             <ol style="list-style-type: none"> <li>a. A price for the units is publicly quoted daily i.e. where the daily NAV is available in public domain</li> <li>b. Mutual fund is limited to investing in the permitted instruments listed.</li> </ol> </li> </ol> <p>Bank has no practice of monitoring / controlling exposures on a net basis, though Bank is able to determine at any time loans/advances and deposits of the same counterparty. Netting benefit, even if available, is not utilized in capital computation under Basel III norms.</p>
--	--

<b>1.4</b>	<b>Main types of guarantor counterparty and their creditworthiness</b>
	<p>Bank considers guarantees, which are direct, explicit, irrevocable and unconditional for Credit risk mitigation. Use of such guarantees for capital computation is strictly as per RBI guidelines on the subject.</p> <p>Main types of guarantor counterparties are</p> <ol style="list-style-type: none"> <li>a. Sovereigns (Central / State Governments)</li> <li>b. Sovereign entities like ECGC, CGFTSI</li> <li>c. Banks and Primary Dealers with a lower risk weight than the counter party</li> </ol> <p>Other entities rated AA (-) or better. This would include guarantee cover provided by parent, subsidiary and affiliate companies when they have lower risk weight than the obligor. The rating of the guarantor should be an entity rating which has factored in all the liabilities and commitments (including guarantees) of the entity.</p>
<b>1.5</b>	<b>Information on market / credit risk concentrations within the mitigation taken by the Bank</b>
	<p>Majority of financial collaterals held by the Bank are by way of own Deposits, Government Securities, Gold, Life Insurance Policies and other approved securities like NSC, KVP etc. Bank does not envisage market liquidity risk in respect of financial collaterals except in Gold and Units of Mutual Funds. Bank does not have concentration in exposure collateralized through units of eligible Mutual Funds. With respect to gold loans, each and every exposure is reviewed/ renewed/closed within a maximum period of 12 months. Bank could successfully manage the risks posed by sudden reduction in gold price in the past on account of maintaining RBI stipulated LTV and close monitoring if the accounts. Measures warranted during each situation were timely taken.</p> <p>Bank has not experienced any significant Market liquidity risk in Gold. Overall, financial collaterals do not have any issue in realization.</p> <p>Concentration on account of collateral is also relevant in the case of Land &amp; building. Except in the case of Housing loan to individuals and loans against property, land and building is considered only as an additional security. As land and building is not recognized as eligible collateral under Standardized Approach, its value is not reduced from the amount of exposure in the process of computation of capital charge. It is used only in the case of Housing loan to individuals and non-performing assets to determine the appropriate risk weight. As such, there is no concentration risk on account of nature of collaterals.</p>

<b>2. Quantitative Disclosures</b>		(Amount in ₹ Mn.)		
<b>2.1</b>	<b>Credit risk exposure covered by eligible financial collaterals</b>			
	Type of exposure	Credit equivalent of gross exposure	Value of eligible financial collateral after haircuts	Net amount of credit exposure

	<b>TOTAL</b>	<b>45318.69</b>	<b>45216.43</b>	

**TABLE DF – 6: SECURITISATION: DISCLOSURES FOR STANDARDIZED APPROACH**

<b>1.</b>	<b>Qualitative disclosures</b>
<b>1.1</b>	<b>General disclosures on securitization exposures of the Bank</b>
A	Objectives of securitization activities of the Bank (including the extent to which these activities transfer credit risk of the underlying securitized exposures away from the Bank to other entities and nature of other risks inherent in securitized assets)
	Bank's securitisation exposure is limited to investments in securitisation instruments (Pass Through Certificates) and purchase of asset portfolio by way of Direct assignment route. The bank invests/ purchase securitised assets with the objective of book building and yield optimisation.
B	Role of Bank in securitization processes (originator / investor/ service provider/ facility provider etc.) and extent of involvement in each activity.
	As an Investor: The Bank invests in Pass Through Certificates backed by financial assets originated by third parties. Such investments are held in its Trading book. As an Assignee: The Bank also purchases Asset portfolio by way of Direct assignment from Banks / NBFCs.
C	Processes in place to monitor changes in the credit and market risk of securitization exposures
	The major risks involved in Loan assignment transactions are: <b>Credit Risk:</b> The risk of default on a debt that may arise from an obligor failing to

	<p>make required payments.</p> <p><b>Co-mingling risks:</b> Risks arising on account of co-mingling of funds belonging to the assignee with that of originator. This occurs when there is a time lag between collection of loan instalments by the originator and remittance to the assignee.</p> <p><b>Regulatory and legal risks:</b> Risks arising due to non-compliance of regulatory requirements resulting in keeping higher risk weight/ capital charge for assignment transactions. Risk of non-compliance of regulatory rules.</p> <p><b>Prepayment risk:</b> Prepayment risk arises on account of prepayment of dues by obligors in the assigned pool either in part or full.</p> <p>Bank is constantly monitoring the changes in Credit and Market risk profile of securitization instruments held in the Trading book and Banking book. In case of portfolio purchased through Assignment route, monitoring is done on an individual account level.</p>	
D	Bank's policy governing the use of credit risk mitigation to mitigate the risks retained through securitization exposures	
	The Bank has not originated any securitization exposures. In the case of purchase by way of Direct assignment route, Bank has not used any Credit risk mitigants.	
<b>1.2</b>	<b>Accounting policies for securitization activities</b>	
A	Treatment of transaction (whether as sales or financings)	
	NA	
B	Methods and key assumptions (including inputs) applied in valuing positions retained or purchased	
	Income from investments in Pass Through Certificates is recognized on accrual basis. Income recognition is subjected to prudential norms stipulated by Reserve Bank of India in this regard. The loans purchased through Direct assignment route are classified as advances. The loans purchased will be carried at acquisition cost.	
C	Changes in methods and key assumptions from the previous period and impact of the changes	
	No change is effected in methods and key assumptions used for valuation of investment in securitized instruments (Pass Through Certificates).	
D	Policies for recognizing liabilities on the balance sheet for arrangements that could require the bank to provide financial support for securitized assets.	
	Bank has not entered into any arrangement to provide financial support for securitized assets.	
<b>1.3</b>	<b>In the Banking Book, names of ECAIs used for securitizations and the types of securitization exposures for which each agency is used.</b>	
	For computation of Capital requirements for loans purchased by way of Direct assignment, Bank has used the Credit rating issued by eligible ECAIs.	
<b>2.</b>	<b>Quantitative disclosures (Amount in ₹ Mn)</b>

**TABLE DF – 7: MARKET RISK IN TRADING BOOK**

<b>1.</b>	<b>Qualitative disclosures</b>
<b>1.1</b>	<b>Approach used for computation of capital charge for market risk</b>

	<p>Bank has adopted Standardized Duration Approach as prescribed by RBI for computation of capital charge for general market risk and is fully compliant with such RBI guidelines. Bank uses VaR as an indicative tool for measuring Forex risk and Equity Price risk. Standardized Duration Approach is applied for computation of General Market Risk for</p> <ul style="list-style-type: none"> <li>• Securities under HFT category</li> <li>• Securities under AFS category</li> <li>• Open gold position limits</li> <li>• Open foreign exchange position limits</li> <li>• Trading positions in derivatives</li> <li>• Derivatives entered into for hedging trading book exposures</li> </ul> <p>Specific capital charge for market risk is computed based on risk weights prescribed by the Regulator.</p>
<b>1.2</b>	<b>Portfolios covered in the process of computation of capital charge</b>
	Investment portfolio under AFS and HFT, Gold and Forex open positions and Derivatives entered for trading and hedging.

(Amount in ₹ Mn.)

<b>2.</b>	<b>Quantitative disclosures</b>	
<b>2.1</b>	<b>Minimum capital requirements for market risk as per Standardized Duration Approach</b>	<b>3,387.05</b>
	Interest rate risk	1499.21
	Foreign exchange risk (including gold)	253.13
	Equity position risk	1634.71

**TABLE DF – 8: OPERATIONAL RISK**

<b>1.</b>	<b>Qualitative disclosures</b>
<b>1.1</b>	<b>Approach used for computation of capital charge for operational risk (and for which the Bank is qualified)</b>
	Bank is following the Basic Indicator Approach for computation of capital charge for operational risk. Bank has initiated steps for migrating to the advanced approaches in due course.

**TABLE DF – 9: INTEREST RATE RISK IN BANKING BOOK (IRRBB)**

<b>1.</b>	<b>Qualitative disclosures</b>
-----------	--------------------------------

	<p>The impact of adverse movements in interest rates on financials is referred to as interest rate risk. For banking book, interest rate risk arises through mismatches in re-pricing of interest rate sensitive assets (RSA), rate sensitive liabilities (RSL) and rate sensitive off-balance sheet items. As interest rate risk can impact both Net Interest Income (NII) and Economic value of capital, it is assessed and managed from both earnings and economic value perspective.</p> <p>a) <b>Earnings perspective:</b> Analyses the impact on Bank's Net Interest Income (NII) in the short term through traditional gap analysis.</p> <p>b) <b>Economic perspective:</b> Analyses the impact on the Net-worth of bank due to re-pricing of assets, liabilities and off-balance sheet items through duration gap analysis.</p> <p>The Bank classifies an asset/liability as rate sensitive if:</p> <ul style="list-style-type: none"> <li>• Within the time interval under consideration, there is a cash flow</li> <li>• The interest rate resets / reprices contractually during the interval</li> <li>• RBI changes the interest rates in cases where interest rates are administered.</li> </ul> <p>Rate sensitive assets and liabilities are grouped under various time buckets prescribed by RBI for interest rate sensitivity statement and bucket wise modified duration is computed using the suggested common maturity, coupon and yield parameters.</p>
	<p>Non-rate sensitive liabilities and assets primarily comprise of capital, reserves and surplus, other liabilities, cash and balances with RBI, current account balances with banks, fixed assets and other assets.</p> <p>IRRBB is assessed on a monthly basis and monitored by ALCO, both under earnings and economic value perspectives.</p>

Amount in ₹Mn

2	Quantitative disclosures - Impact of interest rate risk		
		Total Book	Banking Book
2.1	<b>Earnings perspective (Traditional Gap Analysis)</b>		
	Earnings at Risk (EaR) – impact for one year due to Uniform 1% increase/ decrease in interest rate	489.72	590.93
	Economic value perspective – percentage and quantum of decrease in market value of equity on account of 1% uniform increase/decrease in interest rate	11012.42	9996.64

(Currency wise break up not provided as the turnover in other currencies is less than 5% of total turnover)

**TABLE DF – 10: General Disclosure for Exposure Related to Counterparty Credit Risk**

Qualitative disclosures
Bank has put in place Counterparty Credit Risk limits for banks as counterparty, based on internal rating of the counterparty bank and with the approval of the Board. Counterparty exposures for other entities are subject to comprehensive exposure ceilings fixed by the Board. Capital for Counterparty Credit Risk is assessed based on the Standardized Approach.

**Quantitative disclosures**

The Bank does not recognize bilateral netting. The credit equivalent amounts of derivatives that are subjected to risk weighting are calculated as per the Current Exposure Method. The balance outstanding and the current exposure thereof are as follows:

(Amount in ₹ Mn.)

Particulars	Notional Amounts	Current Exposure
Foreign exchange contracts	191696.50	14434.64
Interest rate derivative contracts	23730.00	391.01
<b>Total</b>	<b>215426.50</b>	<b>14825.65</b>

## LEVERAGE RATIO (Consolidated)

Leverage ratio is a non-risk based measure of exposure over capital. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The Basel III leverage ratio is defined as the ratio of capital measure (the numerator) to exposure measure (the denominator), expressed as a percentage.

The capital measure used for the leverage ratio at any particular point in time is the Tier 1 capital measure applying at that time under the risk-based framework. Total exposure measure is the sum of the on-balance sheet exposures, derivative exposures, securities financing transaction (SFT) exposures and off-balance sheet (OBS) items.

$$\text{Leverage Ratio} = \frac{\text{Tier I Capital}}{\text{Total Exposure}}$$

Table DF 17 - Summary comparison of accounting assets vs. leverage ratio exposure measure.		
	Item	(Amount in ₹ Mn.)
1	Total consolidated assets as per published financial statements	2013673.88
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	35307.78
3	Adjustment for fiduciary assets recognised on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure (less)	169.85
4	Adjustments for derivative financial instruments	16033.07
5	Adjustment for securities financing transactions (i.e. repos and similar secured lending)	37000.00
6	Adjustment for off-balance sheet items (i.e. conversion to credit equivalent amounts of off-balance sheet exposures)	145873.48
7	Other adjustments	3647.72
8	Leverage ratio exposure	2251366.08

Table DF 18 - Leverage ratio common disclosure template		
Item		Leverage ratio framework (Amount in ₹ Mn.)
<b>On-balance sheet exposures</b>		
1	On-balance sheet items (excluding derivatives and SFTs, but including collateral)	2052629.38
2	(Asset amounts deducted in determining Basel III Tier 1 capital)	169.85
3	Total on-balance sheet exposures (excluding derivatives and SFTs) (sum of lines 1 and 2)	2052459.53
<b>Derivative exposures</b>		
4	Replacement cost associated with all derivatives transactions (i.e. net of eligible cash variation margin)	3741.46
5	Add-on amounts for PFE associated with all derivatives transactions	12291.61
6	Gross-up for derivatives collateral provided where deducted from the balance sheet assets pursuant to the operative accounting framework	0.00
7	(Deductions of receivables assets for cash variation margin provided in derivatives transactions)	0.00
8	(Exempted CCP leg of client-cleared trade exposures)	0.00
9	Adjusted effective notional amount of written credit derivatives	0.00
10	(Adjusted effective notional offsets and add-on deductions for written credit derivatives)	0.00
11	<b>Total derivative exposures (sum of lines 4 to 10)</b>	<b>16033.07</b>
<b>Securities financing transaction exposures</b>		
12	Gross SFT assets (with no recognition of netting), after adjusting for sale accounting transactions	37000.00
13	(Netted amounts of cash payables and cash receivables of gross SFT assets)	0.00
14	CCR exposure for SFT assets	0.00
15	Agent transaction exposures	0.00
16	<b>Total securities financing transaction exposures (sum of lines 12 to 15)</b>	<b>37000.00</b>
<b>Other off-balance sheet exposures</b>		
17	Off-balance sheet exposure at gross notional amount	396656.91
18	(Adjustments for conversion to credit equivalent amounts)	250783.43
19	<b>Off-balance sheet items (sum of lines 17 and 18)</b>	<b>145873.48</b>
<b>Capital and total exposures</b>		
20	Tier 1 Capital	160803.57
21	Total exposures (sum of lines 3,11,16 and 19)	2251366.08
<b>Leverage ratio</b>		
22	Basel III leverage ratio	7.14%*

\*Leverage ratio (Solo): 6.98%
