

BASEL III – PILLAR 3 DISCLOSURES AS ON 30TH SEPTEMBER 2016

SCOPE OF APPLICATION AND CAPITAL ADEQUACY

I. Table DF- 1 SCOPE OF APPLICATION

The Basel III capital adequacy norms are applicable to The Federal Bank Limited as the top consolidated entity in the group in line with the Reserve Bank of India (RBI) guidelines on the preparation of consolidated prudential reports.

Qualitative Disclosures

a) List of group entities considered for consolidation

Name of the entity / Country of incorporation	Whether the entity is included under accounting scope of consolidation (yes / no)	Explain the method of consolidation	Whether the entity is included under regulatory scope of consolidation (yes / no)	Explain the method of consolidation	Explain the reasons for difference in the method of consolidation	Explain the reasons if consolidated under only one of the scopes of consolidation
Fedbank Financial Services Ltd India	YES	AS 21	YES	AS 21	NA	NA
IDBI Federal Life Insurance Company Ltd India	YES	AS 23	NO	NA	NA	IDBI Federal is an insurance entity and has been risk weighted for capital adequacy purpose

b) List of group entities not considered for consolidation both under the accounting and regulatory scope of consolidation

Name of the entity / Country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity	Regulatory treatment of bank's investments in the capital instruments of the entity	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)
NIL					

Quantitative Disclosures

c) List of group entities considered for consolidation

(₹ million)

Name of the entity / country of incorporation (as indicated in (i)a. above)	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)
Fed bank Financial Services Ltd India	Marketing of Bank's own products and lending against gold and property.	2167.08	8389.93

d) The aggregate amount of capital deficiencies in all subsidiaries which are not included in the regulatory scope of consolidation i.e. that are deducted:

Name of the subsidiaries / country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity	Capital deficiencies
NIL				

e) The aggregate amounts (e.g. current book value) of the bank's total interests in insurance entities, which are risk-weighted:

(₹ million)

Name of the insurance entities / country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity / proportion of voting power	Quantitative impact on regulatory capital of using risk weighting method versus using the full deduction method
IDBI Federal Life Insurance Company Ltd India	Insurance	6268.25 (as on 31.03.2016)	26%	CRAR will reduce by 0.22% under deduction method

f) Restrictions or impediments on transfer of funds or regulatory capital within the banking group:

There are no restrictions or impediments on transfer of funds or regulatory capital within the banking group.

TABLE DF -2: CAPITAL ADEQUACY

1	Qualitative disclosures		
1.1	<p><i>A summary discussion of the Bank's approach to assess the adequacy of its capital to support current and future activities</i></p> <ol style="list-style-type: none"> 1. Policy on Internal Capital Adequacy Assessment Process has been put in place and the assessment of capital commensurate to the risk profile is reviewed on a quarterly basis. 2. Capital requirement for current business levels and estimated future business levels are assessed on a periodic basis. 3. CRAR has been worked out based on Basel III guidelines and it is well above the Regulatory Minimum level of 9%. 		
2	Quantitative disclosures (Solo Bank)	(₹ million)	
2.1	Capital requirements for credit risk	49626.81	
	Portfolios subject to Standardized approach	49626.81	
	Securitization exposures	0.00	
2.2	Capital requirements for market risk (Standardized duration approach)	2854.71	
	Interest rate risk	1203.45	
	Foreign exchange risk (including gold)	354.38	
	Equity risk	1296.88	
2.3	Capital requirements for operational risk	5133.61	
	Basic Indicator Approach	5133.61	
	Total Capital Requirements	57615.13	
2.4	Common Equity Tier I ,Tier I & Total Capital Ratios	Standalone	Consolidated
	Common Equity Tier I capital Ratio	12.22%	12.49%
	Tier I capital ratio	12.22%	12.49%
	Total capital ratio	12.85%	13.13%

RISK EXPOSURE AND ASSESSMENT

1	Credit risk
	<p><i>Strategies and processes:</i></p> <p>The Bank is exposed to credit risk in its lending operations. The Bank's strategies to manage the credit risks are given below:</p> <ol style="list-style-type: none"> a) Defined segment exposures delineated into Agriculture, Retail, Micro, Small and Medium enterprises and Corporate. b) Industry wise segment caps on aggregate lending by Bank across Branches. c) Individual borrower wise caps on lending as well as borrower group wise lending caps linked as a percentage to the Bank's capital funds as at the end of the previous year. d) Credit rating of borrowers and allowing credit exposures only to defined thresholds of risk levels; the approach also includes diversification of borrowers' credit rating wise but within acceptable risk parameters.

	<p>e) The business of the Bank is within India including the IFSC branch located in GIFT City, Gujarat. There is no geographic cap on lending within India; state wise. However, in respect of certain industries; ceiling for maximum exposure for specific geographies has been fixed with a view to contain Concentration risk. In respect of cross border trade which would involve exposures to banks and financial institutions located outside India, there is a geographic cap on exposures apart from cap on individual bank / institution.</p> <p>f) A well-defined approach to sourcing and preliminary due diligence while sourcing fresh credit limits.</p> <p>g) A clear and well defined delegation of authority within the Bank in regard to decision making, linking risk and exposure to level of approval.</p> <p>h) Regular review of all credit structures and caps with due approval of Bank's Board and continuous strengthening of credit processes.</p> <p>i) Credit hub system is put in place to enhance quality of credit appraisal and underwriting process.</p> <p>j) Bank has put in place appropriate mechanism for ongoing identification, development and assessment of expertise of officials in the area of credit appraisal, underwriting and credit management functions.</p> <p>k) Dedicated Credit Monitoring Department and Credit Monitoring Cells at various levels to monitor / follow up of performance of loans and advances.</p> <p>l) Internal credit rating of all credit proposals of ₹5.00 Crores and above is to be confirmed by Integrated Risk Management Department.</p>
	<p><i>Structure and organization of risk management function:</i></p> <p>Bank has put in place Board approved comprehensive Credit Risk Management Policy. The policy aims to provide basic framework for implementation of sound credit risk management system in the Bank. It spells out various areas of credit risk, goals to be achieved, current practices and future strategies. Bank has also operationalized required organizational structure and framework as prescribed in the policy for efficient credit risk management through proactive identification, precise measurement, fruitful monitoring and effective control of credit risk arising from its credit and investment operations. Risk Management Committee of the Board oversees Bank wide risk management and senior executive level Credit Risk Management Committee monitors adherence to policy prescriptions and regulatory directions. CRMC of the Bank meets at least once in a month to take stock of Bank's credit risk profile based on the reports placed by Credit Risk Division of Integrated Risk Management Department.</p> <p>Bank has put in place a detailed Loan Policy spelling out various aspects of Credit dispensation and Credit administration. Loan policy stipulates measures for avoiding concentration risk by setting prudential limits and caps on sector wise, rating grade wise, and customer-constitution wise exposure. CRM policy gives specific instructions on valuation of collaterals. Bank has also put in place guidelines on fixing and monitoring of exposure ceilings to contain risk in credit and investment exposures.</p>

	<p><i>Scope and nature of risk reporting / measurement systems:</i></p> <p>Bank has implemented comprehensive risk rating system that serves as a single point indicator of diverse risk factors of counterparty and for taking credit decisions in a consistent manner. Risk rating is made applicable for all loan accounts irrespective of amount, whether funded or non-funded. However staff loans and loan against liquid securities are exempted from rating. Bank uses different rating models which are two dimensional and sector specific. Risk rating models are drawn up in a structured manner, incorporating different factors such as borrower specific characteristics, industry specific characteristics, financials, securities offered etc. Retail advances and small value loans are rated using applicable score cards. All rating models are subjected to annual validation. Bank is conducting migration and default rate analysis for all loans of ₹50.00 lakhs and above.</p> <p>Rating process and rating output are used by the Bank in sanction and pricing of its exposures. Bank also conducts annual review of credit rating of its exposures and the findings are used in annual migration study and portfolio evaluation.</p> <p>Credit facilities are sanctioned at various levels in accordance with the delegation approved by the Board. Bank has generally adopted a committee approach for credit sanction. Wherever individuals exercise their powers for credit sanction, the same is subjected to confirmation by a higher authority. Credit rating assigned by an official is also subjected to confirmation by a different official. Credit audit is being conducted at specified intervals. Credit risk mitigation techniques are resorted to contain the risk at the minimum level.</p>
	<p><i>Policies for hedging / mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:</i></p> <p>Bank's Credit Risk Management Policy stipulates various tools for mitigation of credit risk and collateral management. Investment Policy of the Bank covers risk related to investment activities of the Bank and it prescribes prudential limits, methods of risk measurement, and hedges required in mitigation of risk arising in investment portfolio. Risk Management Committee of the Board and executive level Credit Risk Management Committee monitor, discuss, evaluate and review risk mitigation levels and effectiveness of mitigation measures.</p> <p>Risk rating process by itself is an integral part of processes of selection of clients and sanction of credit facilities. Exercise of delegation for sanction of fresh loans or renewal / review of existing exposure by field level functionaries is permitted only for borrowers above a pre-specified rating grade. Entry-level restrictions are further tightened in certain sectors where market signals need for extra caution.</p>

2	Market risk
	<p><i>Strategies and processes:</i></p> <p>Market risk is monitored through various risk limits set vide Board approved Market Risk Management Policy. Detailed policies like Asset Liability Management Policy, Investment Policy, Derivatives Policy, Forex policy, Market Risk Management Policy etc. are put in place for the conduct of business exposed to Market risk and also for effective management of all market risk exposures.</p> <p>The policies and practices also take care of monitoring and controlling of liquidity risk arising out of its banking and trading book operations.</p>
	<p><i>Structure and organization of risk management function:</i></p> <p>Risk Management Committee of the Board oversees bank-wide risk management. Asset Liability Management Committee (ALCO), also known as Market Risk Management Committee, is primarily responsible for establishing Market Risk Management and Asset Liability Management in the Bank. ALCO is responsible for implementing risk management guidelines issued by the regulator, leading risk management practices followed globally and monitoring adherence to the internal parameters, procedures, practices / policies and risk management prudential limits.</p> <p>Independent Mid office, which forms a part of Market Risk Division of IRMD, is operational in the floor of Bank's Treasury for onsite monitoring of Treasury functions. The Mid Office conducts market risk management functions like onsite monitoring of adherence to set limits, independent valuation and reporting of activities. This separate desk monitors market / operational risks in Bank's Treasury/ Forex operations on a daily basis and reports directly to the Head of IRMD and Chief Risk Officer.</p>
	<p><i>Scope and nature of risk reporting / measurement systems:</i></p> <p>Bank has put in place regulatory/ internal limits for various products and business activities relating to trading book. Non-SLR investment exposures are subjected to credit rating. Limits for exposures to counterparties, industries and countries are monitored and risks are controlled through Stop Loss Limits, Overnight Limit, Daylight Limit, Aggregate Gap Limit, Individual Gap Limit, Inter-Bank dealing and investment limits etc. Parameters like Modified Duration, VaR etc. are used for Risk management and reporting.</p>
	<p><i>Policies for hedging / mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:</i></p> <p>Policies for hedging/ mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges / mitigants are discussed in ALCO and based on the views taken by/ mandates given by ALCO, hedge deals/ mitigation steps are undertaken.</p> <p>Liquidity risk of the Bank is assessed through Statements of Structural Liquidity and Short Term Dynamic Liquidity. The liquidity profile of the Bank is measured on static and dynamic basis using the Statements of Structural Liquidity and Short Term</p>

	<p>Dynamic Liquidity, respectively. Structural liquidity position is assessed on a daily basis and Dynamic liquidity position is assessed on a fortnightly basis.</p> <p>Additional prudential limits on liquidity risk fixed as per ALM policy of the Bank are monitored by ALCO on a monthly basis. Interest rate risk is analyzed from earnings perspective using Traditional Gap Analysis and Economic value perspective using Duration Gap Analysis on a monthly basis. Based on the analysis, steps are taken to minimize the impact of interest rate changes. Bank is computing LCR (Liquidity Coverage Ratio) on a monthly basis. Advance techniques such as Stress testing, sensitivity analysis etc. are conducted periodically to assess the impact of various contingencies.</p>
3	Operational risk
	<p><i>Strategies and processes:</i></p> <p>Operational risk is primarily managed by prescribing adequate controls and mitigation measures, which are being reviewed and updated on a regular basis, to suit the changes in business practices, structure and risk profile. Bank has put in place a comprehensive bank-wide Business Continuity Plan to ensure continuity of critical operations of the Bank covering all identified disasters.</p> <p>All new schemes / products of the Bank are risk vetted from the point of view of operational risk, before implementation.</p>
	<p><i>Structure and organization of risk management function:</i></p> <p>Risk Management Committee of the Board oversees Bank-wide Risk management. Bank has put in place detailed framework for Operational Risk Management with a well-defined ORM Policy. Operational Risk Management Committee (ORMC) at the executive level oversees bank wide implementation of Board approved policies and processes in this regard. Apex level Business Continuity Plan Committee monitors the business continuity preparedness of the Bank on an ongoing basis.</p>
	<p><i>Scope and nature of risk reporting / measurement systems:</i></p> <p>Bank is collecting operational risk loss data directly from the loss originating points, with effect from 01.01.2009. Bank also introduced separate accounting of operational risk events to enhance transparency and to enable effective monitoring of loss events. Well-designed system for reporting identified loss events and data in the most granular form is put in place. Operational Risk Division is the central repository for operational loss data of the Bank. Consolidation and analysis of loss data is placed before the Operational Risk Management Committee on a quarterly basis. Bank is conducting Risk and Control Self-Assessment process on a periodic basis for all major products and processes. Bank is also monitoring its key operational risk indicators on a periodic basis.</p>

	<p><i>Policies for hedging / mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:</i></p> <p>Bank is using insurance for mitigating operational risk. Bank is subscribing to the General Banker's Indemnity Policy as mitigation against loss of securities due to various internal and external events. Bank also mitigates loss in other physical assets through property insurance.</p>
4	Interest rate risk in Banking Book
	<p><i>Strategies and processes:</i></p> <p>Interest Rate Risk is assessed in two perspectives – Earnings perspective using Traditional Gap Analysis to assess the impact of adverse movement in interest rate on the Net Interest Income (Earnings at Risk) and economic value perspective using Duration Gap Analysis to assess the impact of adverse movement in interest rate on the market value of Bank's equity.</p>
	<p><i>Structure and organization of risk management function:</i></p> <p>Risk Management Committee at the Board level and ALCO at the executive level are responsible for effective management of Interest Rate Risk in Bank's business. Board approved ALM Policy governs the Interest rate risk management framework of the Bank. Market Risk Management Policy takes care of the management of Interest rate risk in the Trading Book of the Bank.</p>
	<p><i>Scope and nature of risk reporting / measurement systems:</i></p> <p>Interest rate risk in Banking Book is assessed and Modified Duration of Equity is evaluated on a monthly basis. The likely drop in Market Value of Equity for 200 bps change in interest rates is computed and benchmarked under the Internal Capital Adequacy Assessment Process for computation of Pillar II capital charge for Interest Rate Risk. Earnings at Risk based on Traditional Gap Analysis are calculated on a monthly basis. The results of Duration Gap Analysis as well as that of Traditional Gap Analysis including the adherence to tolerance limit set in this regard is monitored and is placed before ALCO / RMC for approval. Stress tests are conducted to assess the impact of interest rate risk under different stress scenarios on earnings of the Bank.</p>
	<p><i>Policies for hedging / mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:</i></p> <p>Bank has put in place mitigating / hedging measures prescribed by Investment Policy, ALM Policy, Market Risk Management Policy and Derivatives Policy. Risk profiles are analyzed and mitigating strategies/ hedging process are suggested and operationalized by Treasury Department with the approval of Senior level Committees.</p>

Structure and organization of Bank’s risk management function

Bank has put in place an organizational framework for Bank-wide management of risk on integrated basis. The structure ensures coordinated process for measuring and managing all material risks on an enterprise-wide basis to achieve organizational goals. The structure assures adherence to regulatory stipulations. The structure is designed in tune with the regulatory guidelines.

Bank’s Board at the top of the structure has assumed overall responsibility for Bank-wide management of risk. The Board decides risk management policies of the Bank and sets risk exposure limits by assessing Bank’s risk appetite and risk bearing capacity. Risk Management Committee of the Board assumes responsibility of devising policy and strategy for enterprise-wide risk management. The Committee also sets guidelines for measurement of risks, risk mitigation and control parameters and approves adequate infrastructure for risk management. The Committee meets regularly and reviews reports placed on various risk areas.

There are three support committees of senior executives (CRMC, ALCO also known as MRMC, ORMC) responsible for implementation of policies and monitoring of level of risks in their respective domains. The Committees are headed by Managing Director & CEO. Senior executives from respective functional areas and risk management are members of the Committee. The Committees meet regularly to take stock of various facets of risk management function and place their reports to Board level Risk Management Committee. CRMC and ALCO meet at least once in a month and ORMC meets at least once in a quarter. Depending on requirement, ALCO meets at shorter frequencies. Further, an apex level Business Continuity Plan Committee is constituted with the Managing Director & CEO as its head, to ensure continuity of critical operations of the Bank in the event of occurrence of disasters.

Integrated Risk Management Department is responsible for overall identification, measurement, monitoring and control of various types of risks faced by the Bank in its operations and compliance of risk management guidelines and policies issued by Regulator / Board. IRMD has three divisions; Credit Risk Division, Market Risk Division and Operational Risk Division. Division Heads report to the Head of IRMD who in turn reports to the Chief Risk Officer. The Chief Risk Officer reports directly to the Managing Director & CEO.

TABLE DF – 3: CREDIT RISK: GENERAL DISCLOSURES

1.	Qualitative disclosures
	<p><i>Definitions of past due and impaired (for accounting purposes):</i></p> <p>1. <u>Non-Performing Assets</u></p> <p>An asset including a leased asset becomes non-performing when it ceases to generate income for the bank. A non-performing asset (NPA) is a loan or an advance where</p>

	<p>a. Interest and/ or installment of principal remain overdue for a period of more than 90 days in respect of a term loan.</p> <p>b. The account remains 'Out of order' as indicated in paragraph 2 below, in respect of an Overdraft / Cash Credit (OD/CC).</p> <p>c. The bill remains overdue for a period of more than 90 days in case of bills purchased and discounted.</p> <p>d. The installment of principal or interest thereon remains overdue for two crop seasons for short duration crops.</p> <p>e. The installment of principal or interest thereon remains overdue for one crop season for long duration crops.</p> <p>An account is classified as NPA if the interest charged during any quarter is not serviced fully within 90 days from the end of the quarter.</p> <p>2. <u>'Out of Order' status</u></p> <p>An account is treated as 'Out of Order' if the outstanding balance remains continuously in excess of the sanctioned limit / drawing power. In cases where the outstanding balance in the principal operating account is less than the sanctioned limit / drawing power, but there are no credits continuously for 90 days as on the date of Balance Sheet or credits are not enough to cover the interest debited during the same period, these accounts are treated as Out of order.</p> <p>3. <u>'Overdue'</u></p> <p>Any amount due to the bank under any credit facility is 'overdue' if it is not paid on the due date fixed by the bank.</p> <p>4. <u>Special Mention Accounts</u></p> <p>As prescribed by RBI, the Bank is required to identify incipient stress in the account by creating a Sub Asset category named as 'Special Mention Accounts' (SMA). It is considered as a corrective action plan to arrest slippages of standard assets to NPA. Accordingly, Bank is identifying three sub categories under SMA as below:</p> <ul style="list-style-type: none"> • SMA-0- Principal or interest payment not overdue for more than 30 days, but account showing signs of incipient stress due to various non-financial reasons. • SMA-1- Principal or interest overdue between 31-60 days. • SMA-2- Principal or interest overdue between 61-90 days.
	<p><i>Credit Risk</i></p> <p>a. Inability or unwillingness of the counterparty to pay interest, repay principal or otherwise to fulfill their contractual obligations under loan agreements or other credit facilities.</p> <p>b. Downgrading of counterparties whose credit instruments, the Bank may be holding, causing the value of those assets to fall.</p> <p>c. Settlement Risk (possibility that the Bank may pay counterparty and fail to receive the corresponding settlement in return).</p>

<p><i>Discussion of the Bank's Credit Risk Management Policy:</i></p> <p>Bank has put in place a detailed Credit Risk Management Policy. Goal of this policy is to create a transparent framework for identification, assessment and effective management of credit risk in all operations of the Bank and to secure organizational strength and stability in the long run. The policy aims at contributing to the Bank's profitability by efficient and profitable utilization of a prudent proportion of the Bank's resources and maintaining a reasonably balanced portfolio of acceptable risk quality through diversification of credit risks. The policy also envisages optimizing returns with satisfactory spread over funding cost and overheads.</p> <p>The policy deals with the structure, framework and processes for effective management of inherent Credit risk.</p>			
Quantitative disclosures			(₹ million)
	Fund based exposure*	Non-fund based exposure**	Total
Total gross credit risk exposures (after accounting offsets in accordance with the applicable accounting regime and without taking into account the effects of credit risk mitigation techniques)	757029.25	55072.77	812102.02
Geographic distribution of exposures (same basis as adopted for segment reporting adopted for compliance with AS 17)			
Overseas	5761.80	0.00	5761.80
Domestic	751267.45	55072.77	806340.22

*Fund based exposures include all type of funded facilities including the unavailed limits and inter-bank exposures. However, exposures to Food Credit, RIDF related exposures, deposits to SIDBI, NABARD and NHB for priority sector lending purposes are excluded.

**Non fund based exposures include guarantees, Letters of Credit and Co-Acceptances of bills / deferred payment guarantees.

TABLE DF – 4: DISCLOSURES FOR PORTFOLIOS SUBJECT TO THE STANDARDIZED APPROACH

1.	Qualitative disclosures
	For portfolios under the Standardized Approach:
	<p><i>Names of credit rating agencies used, plus reasons for any changes:</i></p> <p>Bank has approved all the six External Credit Rating Agencies accredited by RBI for the purpose of credit risk rating of domestic borrower accounts that forms the basis for determining risk weights under Standardized Approach.</p> <p>External Credit Rating Agencies approved are:</p> <ol style="list-style-type: none"> 1. CRISIL 2. CARE 3. India Ratings and Research Private Limited (Formerly FITCH INDIA) 4. ICRA 5. Brickwork Ratings India Pvt. Ltd (BRICKWORK) 6. SMERA Ratings Ltd <p>With respect to external credit rating, Bank is using long term ratings for risk weighting all long term claims and unrated short term claims on the same counterparty. However, short term rating of a counterparty is used only to assign risk weight to all short term claims of the obligor and not to risk weight unrated long term claims on the same counterparty.</p> <p>For an unrated claim with respect to external credit rating, the Bank is using long term ratings for risk weighting both unrated long term claims as well as unrated short term claims on the same counterparty. However, short term rating of counterparty is only used to assign risk weight to unrated short term claims and not unrated long term claims of the same counterparty.</p> <p>Wherever external credit rating of guarantor is relevant, the same is used as the entity rating of the guarantor and not the rating of any particular issue of the guarantor. Whereas the entity ratings are used to risk weight specific unrated credit exposures of counterparty, rating of any credit exposure of the counterparty is not used to arrive at risk weight of that counterparty as guarantor.</p>

	<p><i>Types of exposure for which each agency is used:</i></p> <ol style="list-style-type: none"> 1. Rating by the agencies is used for both fund based and non-fund based exposures. 2. Short Term Rating given by the agencies is used for exposure with contractual maturity of less than or equal to one year (except Cash Credit, Overdrafts and other Revolving Credits). 3. Long Term Rating given by the agencies is used for exposures with contractual maturity of above one year and also for Cash Credit, Overdrafts and other Revolving Credits. 4. Rating assigned to one particular entity within a corporate group is not used to risk weight other entities within the same group.
	<p><i>Description of the process used to transfer public issue ratings onto comparable assets in the Banking Book:</i></p> <p>The ratings available in public domain are mapped according to mapping process as envisaged in RBI guidelines on the subject.</p> <p>Issue Specific Ratings (Bank's own exposures or other issuance of debt by the same borrower constituent/ counterparty) or Issuer Ratings (borrower constituent/ counterparty) are applied to unrated exposures of the same borrower constituent/ counterparty subject to the following:</p> <ol style="list-style-type: none"> 1. Issue specific ratings are used where the unrated claim of the Bank ranks paripassu or senior to the rated issue / debt. 2. Wherever issuer rating or issue specific ratings are used to risk weight unrated claims, such ratings are extended to entire amount of claim on the same counterparty. 3. Ratings used for risk weighting purposes are confirmed from the websites of the rating agencies concerned.

2. Quantitative disclosures		
Risk weight wise details of exposures (rated and unrated) after risk mitigation subject to the Standardized Approach (Credit equivalent amount of all exposures subjected to Standardized Approach, after risk mitigation)	Risk Weight	(₹ million)
	Below 100 %	611909.78
	100 %	230544.19
	More than 100 %	81687.70
	Deducted	0.00
	Total	924141.67

TABLE DF – 5: CREDIT RISK MITIGATION: DISCLOSURES FOR STANDARDIZED APPROACHES

1. Qualitative disclosures	
	Disclosures on credit risk mitigation methodology adopted by the Bank that are recognized under the Standardized Approach for reducing capital requirements for credit risk

<p>1.1</p>	<p>Policies and processes for, and an indication of the extent to which the bank makes use of, on- and off-balance sheet netting</p>
	<p>Bank has no practice of on-balance sheet netting for credit risk mitigation. Eligible collaterals taken for the exposures are separately earmarked and the exposures are expressed without netting.</p>
<p>1.2</p>	<p>Policies and processes for collateral valuation and management</p>
	<p>Bank has put in place Board approved policy on Credit Risk Management in which Collateral Management and credit risk mitigation techniques used by the Bank for both Risk management and capital computation purposes are separately included. The Loan policy of the Bank covers various aspects of valuation of collaterals.</p>
<p>1.3</p>	<p>Description of the main types of collateral taken by the Bank</p>
	<p>Collaterals used by Bank as risk mitigants for capital computation under Standardized Approach comprise eligible financial collaterals namely:</p> <ol style="list-style-type: none"> 1. Cash margin and fixed deposits of the counterparty with the Bank. 2. Gold jewellery of purity 91.6% and above, the value of which is notionally converted to value of gold with 99.99% purity. 3. Securities issued by Central and State Governments. 4. Kisan Vikas Patra and National Savings Certificates. 5. Life Insurance Policies with a declared surrender value of an Insurance company regulated by the insurance sector regulator. 6. Debt securities rated by a chosen Credit Rating Agency in respect of which the bank is sufficiently confident of market liquidity of the security and where these securities are either: <ol style="list-style-type: none"> a. Attracting 100% or lesser risk weight i.e. rated at least BBB (-) when issued by Public sector entities and other entities including banks and Primary Dealers or b. Attracting 100% or lesser risk weight i.e. rated at least A3 for short term debt instruments 7. Debt securities not rated by a chosen Credit Rating Agency in respect of which the bank is sufficiently confident of market liquidity of the security and where these securities are <ol style="list-style-type: none"> a. Issued by the bank b. Listed on a recognized exchange c. Classified as senior debt d. All rated issues of the same seniority by the issuing Bank are rated at least BBB (-) or A3 by a chosen Credit Rating Agency e. The bank has no information to suggest that the issue justifies a rating below BBB (-) or A3 by a chosen Credit Rating Agency 8. Units of Mutual Funds regulated by the securities regulator of the jurisdiction of the Bank's operation and mutual funds where

	<p>a. A price for the units is publicly quoted daily i.e. where the daily NAV is available in public domain</p> <p>b. Mutual fund is limited to investing in the permitted instruments listed.</p> <p>Bank has no practice of monitoring / controlling exposures on a net basis, though Bank is able to determine at any time loans/ advances and deposits of the same counterparty. Netting benefit, even if available, is not utilized in capital computation under Basel III norms.</p>
1.4	Main types of guarantor counterparty and their creditworthiness
	<p>Bank considers guarantees, which are direct, explicit, irrevocable and unconditional for Credit risk mitigation. Use of such guarantees for capital computation is strictly as per RBI guidelines on the subject.</p> <p>Main types of guarantor counterparties are</p> <ul style="list-style-type: none"> a. Sovereigns (Central / State Governments) b. Sovereign entities like ECGC, CGFTSI c. Banks and Primary Dealers with a lower risk weight than the counter party <p>Other entities rated AA (-) or better. This would include guarantee cover provided by parent, subsidiary and affiliate companies when they have lower risk weight than the obligor. The rating of the guarantor should be an entity rating which has factored in all the liabilities and commitments (including guarantees) of the entity.</p>
1.5	Information on market / credit risk concentrations within the mitigation taken by the Bank
	<p>Majority of financial collaterals held by the Bank are by way of own Deposits, Government Securities, Gold, Life Insurance Policies and other approved securities like NSC, KVP etc. Bank does not envisage market liquidity risk in respect of financial collaterals except in Gold and Units of Mutual Funds. Bank does not have exposure collateralized through units of eligible Mutual Funds. With respect to gold loans, each and every exposure is reviewed/ renewed/ closed within a maximum period of 12 months. Bank could successfully manage the risks posed by sudden reduction in gold price in the past. Measures warranted by the situation were timely taken. Bank has not experienced any significant Market liquidity risk in Gold. Overall, financial collaterals do not have any issue in realization.</p> <p>Concentration on account of collateral is also relevant in the case of Land & building. Except in the case of Housing loan to individuals and loans against property, land and building is considered only as an additional security. As land and building is not recognized as eligible collateral under Standardized Approach, its value is not reduced from the amount of exposure in the process of computation of capital charge. It is used only in the case of Housing loan to individuals and non-performing assets to determine the appropriate risk weight. As such, there is no concentration risk on account of nature of collaterals.</p>

2. Quantitative Disclosures (₹ million)				
2.1 Credit risk exposure covered by eligible financial collaterals				
	Type of exposure	Credit equivalent of gross exposure	Value of eligible financial collateral after haircuts	Net amount of credit exposure
A	Funded Credit Exposure	95198.10	87257.69	7940.41

D	Securitization exposures – Off balance sheet	0.00	0.00	0.00
	TOTAL	114986.15	94844.59	20141.56
2.2 Credit risk exposure covered by guarantees				
	Type of exposure	Credit equivalent of gross exposure	Amount of guarantee (Credit equivalent)	
A	Funded Credit Exposure	32401.98	18960.92	
B	Non funded Credit exposure	9922.95	8730.85	
C	Securitization exposures – on balance sheet	0.00	0.00	
D	Securitization exposures – off balance sheet	0.00	0.00	
	TOTAL	42324.93	27691.77	

TABLE DF – 6: SECURITISATION: DISCLOSURES FOR STANDARDIZED APPROACH

1. Qualitative disclosures	
1.1 General disclosures on securitization exposures of the Bank	
A	Objectives of securitization activities of the Bank (including the extent to which these activities transfer credit risk of the underlying securitized exposures away from the Bank to other entities and nature of other risks inherent in securitized assets)
	Bank's securitisation exposure is limited to investments in securitisation instruments (Pass Through Certificates) and purchase of asset portfolio by way of Direct assignment route. The bank invests/ purchase securitised assets with the objective of book building and yield optimisation.
B	Role of Bank in securitization processes (originator / investor/ service provider/ facility provider etc.) and extent of involvement in each activity.
	As an Investor: The Bank invests in Pass Through Certificates backed by financial assets originated by third parties. Such investments are held in its Trading book. As an Assignee : The Bank also purchases Asset portfolio by way of Direct assignment from Banks / NBFCs.
C	Processes in place to monitor changes in the credit and market risk of securitization exposures
	The major risks involved in Loan assignment transactions are:

	<p>Credit Risk: The risk of default on a debt that may arise from an obligor failing to make required payments.</p> <p>Co-mingling risks: Risks arising on account of co-mingling of funds belonging to the assignee with that of originator. This occurs when there is a time lag between collection of loan instalments by the originator and remittance to the assignee.</p> <p>Regulatory and legal risks: Risks arising due to non-compliance of regulatory requirements resulting in keeping higher risk weight/ capital charge for assignment transactions. Risk of non-compliance of regulatory rules.</p> <p>Prepayment risk: Prepayment risk arises on account of prepayment of dues by obligors in the assigned pool either in part or full.</p> <p>Bank is constantly monitoring the changes in Credit and Market risk profile of securitization instruments held in the Trading book and Banking book. In case of portfolio purchased through Assignment route, monitoring is done on an individual account level.</p>
D	Bank's policy governing the use of credit risk mitigation to mitigate the risks retained through securitization exposures
	The Bank has not originated any securitization exposures. In the case of purchase by way of Direct assignment route; bank has not used any Credit risk mitigants.
1.2	Accounting policies for securitization activities
A	Treatment of transaction (whether as sales or financings)
	NA
B	Methods and key assumptions (including inputs) applied in valuing positions retained or purchased
	Income from investments in Pass Through Certificates is recognized on accrual basis. Income recognition is subjected to prudential norms stipulated by Reserve Bank of India in this regard. The loans purchased through Direct assignment route are classified as advances. The loans purchased will be carried at acquisition cost.
C	Changes in methods and key assumptions from the previous period and impact of the changes
	No change is effected in methods and key assumptions used for valuation of investment in securitized instruments (Pass Through Certificates).
D	Policies for recognizing liabilities on the balance sheet for arrangements that could require the bank to provide financial support for securitized assets.
	Bank has not entered into any arrangement to provide financial support for securitized assets.
1.3	In the Banking Book, names of ECAs used for securitizations and the types of securitization exposures for which each agency is used.
	For computation of Capital requirements for loans purchased by way of Direct assignment, Bank has used the Credit rating issued by eligible ECAs.

2.	Quantitative disclosures	(₹ million)

	Credit enhancing interest only strips (I/Os) deducted from total capital – underlying exposure type wise break up		Nil
	Other exposures deducted from total capital – underlying exposure type wise break up		Nil

TABLE DF – 7: MARKET RISK IN TRADING BOOK

1.	Qualitative disclosures
1.1	Approach used for computation of capital charge for market risk
	<p>Bank has adopted Standardized Duration Approach as prescribed by RBI for computation of capital charge for general market risk and is fully compliant with such RBI guidelines. Bank uses VaR as an indicative tool for measuring Forex risk and Equity Price risk. Standardized Duration Approach is applied for computation of General Market Risk for</p> <ul style="list-style-type: none"> • Securities under HFT category • Securities under AFS category • Open gold position limits • Open foreign exchange position limits • Trading positions in derivatives • Derivatives entered into for hedging trading book exposures <p>Specific capital charge for market risk is computed based on risk weights prescribed by the Regulator.</p>
1.2	Portfolios covered in the process of computation of capital charge
	Investment portfolio under AFS and HFT, Gold and Forex open positions and Derivatives entered for trading and hedging.

(₹ million)

2.	Quantitative disclosures	
2.1	Minimum capital requirements for market risk as per Standardized Duration Approach	2854.71
	Interest rate risk	1203.45
	Foreign exchange risk (including gold)	354.38
	Equity position risk	1296.88

TABLE DF – 8: OPERATIONAL RISK

1.	Qualitative disclosures
1.1	Approach used for computation of capital charge for operational risk (and for which the Bank is qualified)
	Bank has adopted Basic Indicator Approach as prescribed by RBI for computation of capital charge for Operational risk. Bank has initiated steps to move on to the Advanced measurement approach in due course.

TABLE DF – 9: INTEREST RATE RISK IN BANKING BOOK (IRRBB)

1.	Qualitative disclosures
	<p>The impact of adverse movements in interest rates on financials is referred to as interest rate risk. For banking book, interest rate risk arises through mismatches in re-pricing of interest rate sensitive assets (RSA), rate sensitive liabilities (RSL) and rate sensitive off-balance sheet items. As interest rate risk can impact both Net Interest Income (NII) and Economic value of capital, it is assessed and managed from both earnings and economic value perspective.</p> <p>a) Earnings perspective: Analyses the impact on Bank's Net Interest Income (NII) in the short term through traditional gap analysis.</p> <p>b) Economic perspective: Analyses the impact on the Net-worth of bank due to re-pricing of assets, liabilities and off-balance sheet items through duration gap analysis.</p> <p>The Bank classifies an asset/ liability as rate sensitive if:</p> <ul style="list-style-type: none"> • Within the time interval under consideration, there is a cash flow • The interest rate resets / reprices contractually during the interval • RBI changes the interest rates in cases where interest rates are administered. <p>Rate sensitive assets and liabilities are grouped under various time buckets prescribed by RBI for interest rate sensitivity statement and bucket wise modified duration is computed using the suggested common maturity, coupon and yield parameters.</p>

	<p>Core portion of non-maturing deposits (Current Account and Saving Account) is bucketed in “over 1 year – 3 year” based on the behavioural analysis. Non-rate sensitive liabilities and assets primarily comprise of capital, reserves and surplus, other liabilities, cash and balances with RBI, current account balances with banks, fixed assets and other assets.</p> <p>IRRBB is assessed on a monthly basis and monitored by ALCO, both under earnings and economic value perspectives.</p>

2.	Quantitative disclosures - Impact of interest rate risk	(₹ million)	
		Total Book	Banking Book
2.1	Earnings perspective (Traditional Gap Analysis)		
	Earnings at Risk (EaR) – impact for one year due to		
	Uniform 1% increase in interest rate		
	Uniform 1% decrease in interest rate	1956.31	1781.48
2.2	Economic value perspective – percentage and quantum of decrease in market value of equity on account of 1% uniform increase in interest rate	6.40%	5.51%
		5415.16	4667.05

(Currency wise break up not provided as the turnover in other currencies is less than 5% of total turnover)

TABLE DF – 10: General Disclosure for Exposure Related to Counterparty Credit Risk

Qualitative disclosures		
Bank has put in place Counterparty Credit Risk limits for banks as counterparty, based on internal rating of the counterparty bank and with the approval of the Board. Counterparty exposures for other entities are subject to comprehensive exposure ceilings fixed by the Board. Capital for Counterparty Credit Risk is assessed based on the Standardized Approach.		
Quantitative disclosures		
The Bank does not recognize bilateral netting. The credit equivalent amounts of derivatives that are subjected to risk weighting are calculated as per the Current Exposure Method. The balance outstanding and the current exposure thereof are as follows:		
(₹ million)		
Particulars	Notional Amounts	Current Exposure
Foreign exchange contracts	90899.80	3664.85
Interest rate derivative contracts	10750.00	150.01
Total	101649.80	3814.86

TABLE DF 11			₹ million
Basel III common disclosure template to be used during the transition of regulatory adjustments (i.e. from April 1, 2013 to December 31, 2017)			Amounts subject to Pre-Basel III Treatment
Common Equity Tier 1 capital: instruments and reserves			
1	Directly issued qualifying common share capital plus related stock surplus (share premium)	28582.93	
2	Retained earnings	10674.29	
3	Accumulated other comprehensive income (and other reserves)	41486.46	
4	<i>Directly issued capital subject to phase out from CET1 (only applicable to non-joint stock companies)</i>	0.00	
	Public sector capital injections grandfathered until 1 January 2018	0.00	
5	Common share capital issued by subsidiaries and held by third parties (amount allowed in group CET1)	0.00	
6	Common Equity Tier 1 capital: before regulatory adjustments	80743.68	
Common Equity Tier 1 capital: regulatory adjustments			
7	Prudential valuation adjustments	0.00	
8	Goodwill (net of related tax liability)	0.00	
9	Intangibles other than mortgage-servicing rights (net of related tax liability)	435.61	
10	Deferred tax assets	0.00	
11	Cash-flow hedge reserve	0.00	
12	Shortfall of provisions to expected losses	0.00	
13	Securitization gain on sale	0.00	
14	Gains and losses due to changes in own credit risk on fair valued liabilities	0.00	
15	Defined-benefit pension fund net assets	0.00	
16	Investments in own shares (if not already netted off paid-in capital on reported balance sheet)	0.00	
17	Reciprocal cross-holdings in common equity	10.36	0.00
18	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued share capital (amount above 10% threshold)	0.00	
19	Significant investments in the common stock of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions (amount above 10% threshold)	0.00	
20	Mortgage servicing rights (amount above 10% threshold)	0.00	
21	Deferred tax assets arising from temporary differences (amount above 10% threshold, net of related tax liability)	0.00	
22	Amount exceeding the 15% threshold	0.00	

23	of which: significant investments in the common stock of financial entities		
24	of which: mortgage servicing rights	0.00	
25	of which: deferred tax assets arising from temporary differences	0.00	
26	National specific regulatory adjustments (26a+26b+26c+26d)	0.00

LEVERAGE RATIO (Consolidated)

Leverage ratio is a non-risk based measure of exposure over capital. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The Basel III leverage ratio is defined as the ratio of capital measure (the numerator) to exposure measure (the denominator), expressed as a percentage.

The capital measure used for the leverage ratio at any particular point in time is the Tier 1 capital measure applying at that time under the risk-based framework. Total exposure measure is the sum of the on-balance sheet exposures, derivative exposures, securities financing transaction (SFT) exposures and off- balance sheet (OBS) items.

$$\text{Leverage Ratio} = \frac{\text{Tier I Capital}}{\text{Total Exposure}}$$

Table 1 - Summary comparison of accounting assets vs. leverage ratio exposure measure.		
	Item	(₹ million)
1	Total consolidated assets as per published financial statements	1008318.27
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	450.25
3	Adjustment for fiduciary assets recognized on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure (less)	445.97
4	Adjustments for derivative financial instruments	6633.81
5	Adjustment for securities financing transactions (i.e. repos and similar secured lending)	3000.00
6	Adjustment for off-balance sheet items (i.e. conversion to credit equivalent amounts of off-balance sheet exposures)	80785.25
7	Other adjustments	904.04
8	Leverage ratio exposure	1099645.65

Table-2- Leverage ratio common disclosure template		
	Item	Leverage ratio framework
On-balance sheet exposures		
1	On-balance sheet items (excluding derivatives and SFTs, but including collateral)	1009672.56
2	(Asset amounts deducted in determining Basel III Tier 1 capital)	(445.97)
3	Total on-balance sheet exposures (excluding derivatives and SFTs) (sum of lines 1 and 2)	1009226.59
Derivative exposures		
4	Replacement cost associated with all <i>derivatives</i> transactions (i.e. net of eligible cash variation margin)	1886.57
5	Add-on amounts for PFE associated with all derivatives transactions	4747.24
6	Gross-up for derivatives collateral provided where deducted from the balance sheet assets pursuant to the operative accounting framework	0.00
7	(Deductions of receivables assets for cash variation margin provided in derivatives transactions)	0.00
8	(Exempted CCP leg of client-cleared trade exposures)	0.00
9	Adjusted effective notional amount of written credit derivatives	0.00
10	(Adjusted effective notional offsets and add-on deductions for written credit derivatives)	0.00
11	Total derivative exposures (sum of lines 4 to 10)	6633.81
Securities financing transaction exposures		
12	Gross SFT assets (with no recognition of netting), after adjusting for sale accounting transactions	3000.00
13	(Netted amounts of cash payables and cash receivables of gross SFT assets)	0.00
14	CCR exposure for SFT assets	0.00
15	Agent transaction exposures	0.00
16	Total securities financing transaction exposures (sum of lines 12 to 15)	3000.00
Other off-balance sheet exposures		
17	Off-balance sheet exposure at gross notional amount	185582.04
18	(Adjustments for conversion to credit equivalent amounts)	(104796.79)
19	Off-balance sheet items (sum of lines 17 and 18)	80785.25
Capital and total exposures		
20	Tier 1 Capital	80297.71
21	Total exposures (sum of lines 3,11,16 and 19)	1099645.65
Leverage ratio		
22	Basel III leverage ratio	7.30%
